Positive: Professionalism, Punctuality, Quality, Responsiveness, Value

There's a lot of concrete company's in Calgary, its hard to know if you're choosing the best one. Brian, the owner answered my call on a Sunday and had a crew at my house the same week even though they were extremely busy. They did such an amazing job on my floor! saved me a ton of money over the other companies and the work done was perfect. These guys really are the experts, I can't say enough good about them. 100% recommend !!!

Amazing company and crew! We hired Omega to do a stamped concrete patio and it came out perfect! They were responsive to all of our questions, quick to provide an estimate turnaround the project quickly and it came out better than we could have imagine and very professional. The crew was also fantastic, arriving on time, clean and doing an excellent job.

Positive: Professionalism, Punctuality, Quality, Value

I found Omega online and decided to give them a try because I needed a contractor to finish a few high-end decorative jobs for my home building clients. They responded quickly and provided me with a clear quote and pricing with no hidden fees. They followed their timeline to a tee and were very helpful in achieving my goal of a stellar looking property. When they were finished, they left the site very clean. I was impressed with their honesty and how they live up to their promises. Overall, I highly recommend Omega for concrete services to all of my clients, vendors and will use them personally going forward.

Services: Foundations, Concrete driveway building, Structural construction assistance, Retaining walls, Concrete sidewalk building, Flooring, Concrete footings

Positive: Professionalism, Punctuality, Quality, Responsiveness, Value

I reached out to several companies when looking to get a patio put in. They responded right away and came out to give me an estimate. I had an estimate from them before some of the other companies even got back to me. The quote I got was reasonable compared to the other companies but the service was what made me choose them. Bryan and Colin answered all of my questions and helped me navigate the process. The crew showed up and were great. The patio came out better than I expected. Would highly recommend

Services: General paving, Concrete sidewalk building

Positive: Professionalism, Quality, Responsiveness

We used Omega 2000 to install a new stamped concrete patio. The new patio replaced an existing Expocrete brick patio. The work was done well and we were very pleased with the finished product. Bryan provided a detailed quote and answers all my questions. The made suggestions as to the finish which involved the appearance of the patio. All in a professional and well done job
